WEB REPORT

“University-Level AI Presentation Competition”

Date	14 October 2026
Time	9:00 AM onwards
Venue	SRMICA Building, Uka Tarsadia University
Theme	Transforming Lives Through Education: The Story of Uka Tarsadia University
Total Participants	24 Participants from 8 Institutes
Event Coordinators	Dr. Ronakkumar Patel, Ms. Swati Chauhan, Mr. Yash Panchal and Ms. Rajeshri Chauhan

Program Objective

The University-Level AI Presentation Competition was organized as part of the Foundation Day celebrations of Uka Tarsadia University. The event aimed to provide students with a platform to creatively present the journey, values, growth, achievements and social contribution of the University. With a special emphasis on education as a means of social service, empowerment and transformation, the competition encouraged participants to communicate how education can create opportunities, empower individuals, build communities and contribute to society.

Program Outline

The competition brought together student teams representing the various institutes of Uka Tarsadia University. Each institute was invited to nominate one team of three students. Teams presented on the theme, “Transforming Lives Through Education: The Story of Uka Tarsadia University.” Participants were encouraged to develop creative, engaging, fact-based and inspiring presentations that highlighted the University’s journey and its contribution to society.

Use of Artificial Intelligence

Participants were permitted to use appropriate Artificial Intelligence (AI) tools for research, content development, visualization and presentation preparation. This encouraged students to explore the responsible and purposeful use of emerging technologies while communicating the University’s story in an engaging manner.

Competition Rules and Evaluation

Each team was allotted a maximum of five minutes to present, and presentations were required to be delivered in English. A timer was used to support time management: one tap of the duster at four minutes indicated that one minute remained, while two taps at five minutes indicated that the allotted time had ended. Each team presented before a panel of judges for evaluation.

Competition Results

Based on the final winner sheet, the team representing Shrimad Rajchandra Institute of Management and Computer Application (SRIMCA – MCA), Sequence No. 3, secured First Rank with 78 marks. Asha M. Tarsadia Institute of Computer Science and Technology (AMTICS), Sequence No. 8, secured Second Rank with 74 marks. Babu Madhav Institute of Information Technology (BMIIT), Sequence No. 2, secured Third Rank with 71 marks.

Program Outcomes

The competition provided a platform for students to practise research, teamwork, creative thinking and public presentation. By exploring the University's journey and social contribution, participants had the opportunity to reflect on the role of education in empowerment, opportunity creation and social transformation. The event also encouraged thoughtful use of AI tools for research and communication, while reinforcing the Foundation Day message of learning, leadership and service through education.

The poster features a vibrant design with a blue and purple color scheme. At the top left, there is a DNA helix icon. The top center displays the UKA Tarsadia University logo, which includes a stylized flame and the motto "LEARN - LEAD - LIGHT". To the right, a large profile of a human head is shown, filled with circuitry and a glowing "AI" chip. The background depicts a path leading towards a building labeled "UKA TARSADIA UNIVERSITY", with several figures walking along it. On the right side, a stack of books is shown with titles: "EDUCATION", "EMPOWERMENT", "OPPORTUNITIES", "SOCIAL SERVICE", and "TRANSFORMATION". Below the books, there are icons for a lightbulb, an open book, and a globe with people. The bottom of the poster features a silhouette of the university's campus and the text "UKA TARSADIA UNIVERSITY".
