

## B.V. Patel Institute of Management, Uka Tarsadia University

Date: 25-09-2019

### Session on Cyber Security

The students of B.V. Patel Institute of Management were part of the 'Cyber Security' session where Vishal Panchal, Network Security Analyst and Rohit Sharma, Sr. Security Analyst of Techdefence Labs Solutions Pvt. Ltd. were the speakers of the session.

It all began with introducing ethical/ legal hacking as 'cyber security'. Then the prospect of adhaar linking to Elliot alderson's website was discussed. Concerning about data leakage through devices like mobile phones & laptops was brought into the picture. The fact that only 5% of net and rest 95% was dark or deep net, can be used by the hackers. Further several websites like 'have i been pwned?' were acquainted with regarding information security prospects. It is advised to the students to change passwords frequently to avoid data breaching. The point of how the use of bitcoin is used in Tor Browser and similarly it is untraceable through transactions was discussed. The process of carding is done through UNICC Website. One of the interesting things shared to the students was teaching to find loopholes in websites like hotstar and watch premium shows for free.

Overall, the session was much knowledge giving out of the box aside the regular theoretical bookish concepts.
