On 10th October, 60+ students of second year BBA along with 2 faculty members named Mr. Dharmaraj Solanki and Dr. Anuradha Pathak of B.V.Patel Institute of Management visited Gokulanand USML, Sachin- Palsana Road, Vanz, Surat.

Gokulanand is known for its quality and have got the ISO certificate for manufacturing quality products with set bench mark. GOKULANAND is one of the biggest houses of ATY in India with wide range of products and also having major share in manufacturing speciality yarns and customized products. Gokulanand is the biggest manufacturing house of ATY yarn. Gokulanand has designed and developed Indegeneously Air Texturising machine and Crape Textured machine under the leadership of Deepak Gondalia and these machines are manufactured by Aalidhra Engineering division. Gokulanand is first in India to design and develop its Indigenous Continuous Polymerization Plant under the leadership of Deepak Gondalia.

Whole class is divided in to two group and various process of making yarn was shown by the companies representative. During the visit assisted by the various team leader of the company students were able to know the various types of yarn i.e. Partially Oriented Yarn (POY), Fully Drawn Yarn (FDY), Air Textured Yarn (ATY), Draw Textured Yarn (DTY), Polyester Chips (PET Chips), production process of yarn, various machinery utilised to produced the yarn and also packaging and dispatching of the yarn. Representative also handled the various quesries of the students.

Institute is thankful to management of the Gokulanand for allowing our students to visits the plant and their hospitality.
