B.V. Patel Institute of Management has organized a “hands on exercise on innovative products from old plastic bottles for Second Year BBA Students on Managing Innovation them at BVPIM Prayer Assembly Hall.

For the exercise students were divided into groups having 5 members in each group. All the groups have the same basic resources like Old Plastic 1 liter Bottles and other resources they may use according to their products. Total time given to complete the task was 3 hours i.e. 12:30 pm to 3:30 pm. Students made different products such as Flower Pot, Stationary stand, multipurpose stand, flowers hanging, table, chair, foot supporter, decoration items, could, etc.

At the end of exercise, evaluator has evaluated with different concerned such as marketability, strength, durability, etc. and students has well explained the questions. Students enjoyed a lot and get more ideas for developing such products.
