Parents Orientation 2023 (Parents Meeting)

Date: 09-09-2023

Time: 10:00 AM-12:30 PM

Event Name: Parent Orientation 2023 (Parents Meeting)	Venue: Pushpam Tarsadia Hall	Event Co-ordinator: Ms. Poonam Godhwani
---	--	---

Parent orientation (Parents Meeting) serves as a crucial bridge between parents and educators, facilitating a strong and collaborative partnership in a child's education journey. The session provides an opportunity for faculties to build trust and affinity with parents.

The session was started by Ms. Garima Pathak where she welcomed the students' parents and also discussed the purpose of the Parent Meet orientation.

Parent orientation promotes a sense of partnership between parents and educators. By involving parents in decision-making processes and seeking their input. When parents feel like valued contributors, they expect they are more likely to actively participate in their child's education and offer support beyond the classroom.

It is parents who play a pivotal role in extending the learning that takes place in the classroom to the home environment. Parent orientation equips parents with insights into the curriculum, teaching methods, and learning goals. This knowledge enables them to reinforce key concepts and skills at home, fostering a consistent and supportive learning experience.

She further invited the Director Sir (**Dr. Jitendra Nasriwala**), to address parents. He motivated parents to right selection of career path for their children. He also discussed the technological revolution in this technological era.

Then the session was continued by **Ms. Bhumika Desai** where she provided insights about the Trustees, University's vision and mission. Then she briefed the parents about the Institutes (B. V Patel Institute of Computer Science & Shrimad Rajchandra Institute of Management & Computer Application) educational setting. She also discussed the University's vision and mission.

Further, **Ms. Poonam Godhwani** addressed parents about the Placement opportunity provided to the students along with a discussion related to top recruitment, the technological stack posted by the recruitment along with quantifiable data associated with the package and stipend offered. Next, she also discussed about the Alumni Association & help provided by alumni.

After that, **Mr. Amish Patel** discussed about institute's best practices (time punctuality, ICT-based methods for teaching, development and usage of lesson plans). He also explained the Learning Management Systems (Student Information System, UTU Student portal etc.) used in institute and university. He also focused on the process of how to access such a portal to view student's results, fee payments, exam form filling etc.

Next, **Mr. Jitendra Upadhyay** discussed about the Examination pattern (internal and external weightage) followed for theory and practical subjects. He also explained about the passing criteria, examination form notification and student's result.

Finally, **Dr. Ronak Patel** discussed the counselling process, roles and responsibilities of counsellors. He also presented the data (name, email, Contact No.) of counsellors of BCA & MCA.

Then, individual counselling was arranged at the institute so that parents could discuss with a counsellor of their ward.

Lastly, a vote of thanks was presented by Ms. Garima Pathak.
