

**Date 13<sup>th</sup> December 2018**

**Practical exercise on In-depth Interview**

A practical exercise was done on 12<sup>th</sup> December 2018, Wednesday an activity was announced and the class was divided into four groups. As of the business man, social workers, interviewers and observers respectively, where all of us had to act as one and do our jobs as per the characters that were allocated to us. It was explained to us on the later part that how this activity was associated with one of the topic related to our subject which is “in-depth interview” after explaining the entire task to us, we were given the time limit of five minutes to complete the same. To sum up the activity as one, the students performed bit well. Most of them were serious regarding their job. Though the time given to us was bit less which affected the performance part, but overall it was an interesting task to perform, which also allowed us to move out of our comfort zones and push our limits along with the opportunity to learn something new.
