<b>Coordinator:</b>	Mr. Dharmaraj Solanki and Ms. Bhoomi Patel
<b>Category</b>	Student Development Cell

Sessions on Practical applications of Bhagwad Gita in Daily Life of Youth have been arranged for students of Final Year BBA and MBA as well as pre final year of BBA. The session was attended by more than 175 students and faculty members.

The Bhagavad Gita provides valuable insights on management principles that possess enduring relevance across many temporal and cultural contexts. The teachings of this philosophy remain pertinent in contemporary times, just as they were in antiquity, with regards to self-awareness, ethical behaviour, decision-making, ongoing education, and the ability to motivate others. The Bhagavad Gita, an old religious scripture originating from India, is a perennial and invaluable repository of learning.

In this discourse, we shall delve into some fundamental doctrines derived from the Gita and their pertinence to contemporary leaders.

- The Significance of Self-Awareness
- Embracing Ethical Behavior
- The Process of Decision-Making
- Inspiring and Motivating Individuals

By integrating these ideas into their leadership methodology, contemporary managers can cultivate favourable work environments, enhance decision-making capabilities, and motivate their teams to attain exceptional outcomes. The Gita serves as a reminder that good leadership encompasses more than mere outward methods and techniques; it necessitates the inward transformation of the leader.
